

FIȘA DISCIPLINEI

1. Information regarding the programme

1.1 Higher education institution	Babeș-Bolyai University
1.2 Faculty	Geography
1.3 Department	Geography Doctoral School
1.4 Field of study	Geography
1.5 Study cycle	Doctoral studies
1.6 Study programme / Qualification	Doctoral degree

2. Information regarding the discipline

2.1 Name of the discipline	The Geography of Economic Development						
2.2 Course coordinator	Prof. dr. József Benedek						
2.3 Seminar coordinator	Prof. dr. József Benedek						
2.4 Year of study	I	2.5 Semester	II	2.6 Type of evaluation	Exam	2.7 Type of discipline	Compulsory

3. Total estimated time (hours/semester of didactic activities)

3.1 Hours per week	3	Of which: 3.2 course	2	3.3 seminar/laboratory	1
3.4 Total hours in the curriculum	36	Of which: 3.5 curs	24	3.6 seminar/laboratory	12
Time allotment					hours
Learning using manual, course support, bibliography, course notes					36
Additional documentation (in libraries, on electronic platforms, field documentation)					32
Preparation for seminars/labs, homework, papers, portfolios and essays					24
Tutorship					6
Evaluations					2
Other activities					-
3.7 Total individual study hours	100				
3.8 Total hours per semester	200				
3.9 Number of ECTS credits	8				

4. Prerequisites (if necessary)

4.1 curriculum	-
4.2 competencies	-

5. Conditions (if necessary)

5.1 for the course	<ul style="list-style-type: none"> The course classes will be held in the main building of Faculty of Geography according to the official timetable in a hall with video projector
5.2 for the seminar /lab activities	<ul style="list-style-type: none"> The practical classes will be held in the main building of Faculty of Geography according to the official timetable in a hall with computer network connected to the Internet and with online access to international data basis and archive (statistical data and maps)

6. Specific competencies acquired

Professional competencies	<ul style="list-style-type: none"> The course aims at obtaining fundamental knowledge in the field of inequalities and sustainable development.
Transversal competencies	<ul style="list-style-type: none"> ability to structure information; ability to analyze and synthesize information; ability to work in a team and coordinate with colleagues.

7. Objectives of the discipline (outcome of the acquired competencies)

7.1 General scope of the discipline	<ul style="list-style-type: none"> Improving the knowledge of the students in the economy and geography of inequalities, accumulation of new knowledge in sustainable development.
7.2 Specific objectives)	<ul style="list-style-type: none"> Introducing the students in the analysis and interpretation of processes generating socio-spatial inequalities. Introducing the concepts and principles of sustainable development.

8. Content

8.1. Course	Teaching methods	Time
1. Introduction: definitions, economic growth, economic development, sustainable development.	Oral presentation	2 hours
2. Theories of development: neoclassical school	Oral presentation	2 hours
3. Theories of development: theories of spatial polarisation	Oral presentation	2 hours
4. Theories of development: innovation theories	Oral presentation	2 hours
5. The principles of sustainable development	Oral presentation	2 hours
6. The objectives of sustainable development (poverty, hunger, health, education).	Oral presentation	2 hours
7. The objectives of sustainable development (renewable energy, economic growth and infrastructure).	Oral presentation	2 hours
8. The objectives of sustainable development (sustainable cities, climate change, biodiversity).	Oral presentation	2 hours

9. Social, economic and spatial inequalities.	Oral presentation	2 hours
10. Measurement of inequalities.	Oral presentation	2 hours
11. Main socio-spatial models of inequalities.	Oral presentation	2 hours
12. Spatial and environmental justice, right to the city.	Oral presentation	2 hours

6. World Bank, Commission on Growth and Development (2008) The Growth Report. Strategies for Sustained Growth and Inclusive Development. Washington.

8.2. Seminar	Teaching method	Time
1. Sources of statistical documentation	Working with statistical sources	2 hours
2. Theories of development	Debate, argumentation	4 hours
3. Measurement of the index of sustainable development	Statistical analysis	4 hours
4. Measurement of the index of well-being	Statistical analysis	2 hours

9. Corroborating the content of the discipline with the expectations of the epistemic community, professional associations and representative employers within the field of the program

- The discipline is corroborated with the professional standards established by the geographic community.

10. Evaluation

Type of activity	10.1 Evaluation criteria	10.2 Evaluation methods	10.3 Share in the grade
10.4 Cours	Verification of the level of sistematization and the professional use of the basic concepts.	Oral examination during the semester: - Evaluation conversation - Oral questioning	20 %
	Logical coherence	Written examination in the examination period: - Written testing.	30 %
10.5 Seminar/laboratory	Capacity to operate with the accumulated knowledge in practical activities	Presentation fo seminar theme, elaboartion of research miniproject.	40 %
		Active participation in the seminars	10%

10.6 Minimum performance standards

- To know the basic teoretical and methodological aspects of economic development.
